

SUITABLE FOR AGES 3-8

## me, myself and i

Celebrate how wonderfully different your students are with this fun activity.

### YOU'LL NEED

- A sunny day or a bright light source
- A3 paper (one for each student)
- Pencil
- Dark colour permanent marker or felt-tip pen
- Stools or chairs
- Coloured pens, pencils or crayons

### INSTRUCTIONS

- 1 Pin the A3 paper vertically on a wall or window. Sit the students individually sideways so that the light source projects their profile shadow on the A3 paper. Using the pens trace the outline of the student on the paper.
- 2 Once the pencil outline is complete, take down the paper and draw around the line made by the shadow using a permanent marker or felt tip pen.
- 3 Ask the students to fill the space of their shadow with all the things that are special to them. They can write their name in bright colours, cut out magazine pictures, or draw anything they fancy!
- 4 Cut around the silhouette and put up on the wall!
